

## FIRST YEAR PROJECT IN SPAIN

At international level:

We participated already in 3 mobility's in which 6 different people took part: 3 people from staff and 3 adult learners.

The mobility's took part in:

England from 15<sup>th</sup> till 19<sup>th</sup> April 2013

Germany from 10<sup>th</sup> till 14<sup>th</sup> June 2013

Austria from 9<sup>th</sup> till 13<sup>th</sup> October 2013

They were from different ages, from different generations (from 20 to 53). All of them enjoyed the visits a lot and considered them very useful. They hadn't expected anything in advance, but during the evaluation of the mobility's they admitted that it was a good surprise for them. They liked meeting new people, getting to know different cultures and use of plants, participating in different workshops really nice and useful for them and been able to share good practice, develop their communication skills and exchange of experiences, all the mobility where well done prepare, and all the hosting partners take care about them during the mobility, they will suggest and promote to take part in this kind of projects., were very educational and practical for them, important to get new skills.

On local level:

Our Staff have had numerous meetings with learners involved in the mobility's in the project, including some local organizations and partners, who work closely with environmental topic and plants. The organization regularly promotes in local, national

and international level the project, with different triptics, a posters, web-blog of the project in the email, presentations ,etc.

We provide during this first year different activities in local level for our community related of the theme of the project, recover and promote the use of the plants and to pass to new generations.

Presentation the project in the local community September 2012  
Presentation the project in the local community February 2013  
Workshop about Make soap in traditional way November 2012  
Workshop about recycling paper with plants March 2013  
Workshop about Cream with Aloe Vera April 2013  
Workshop about Cream for mosquitos June 2013  
Workshop about soap with Aloe Vera + oil June 2013  
Botanic route in El Altet June 2013

The participants in the workshop are also involve in some of the mobility's.

All the participants in the workshops, appreciate the work that we do and the interesting workshops that we provide to them, they enjoy and normally there are some people that repet in the workshops, for some of them is also a new experience and for others a way to get involve and to share their experiences to other participants.

After these workshops, the community is more interested and motivated of use of the plants, to transfer the knowledge to the other generation and to learn new things.

For the second year of the project the organization with the people involve in the project decide to do more workshops and events.

We are happy to take part in this project, it is a good opportunity for the organization to acquire new competences and stimulate the intergenerational use of plants, communication and co-operation.

Asociación Usit.
